

Calculate the washing time for:
TypeOfDirt=100 & Dirtiness=20

	Rule	Weight
1	If TypeOfDirt is NotGreasy then WashingTime is Short	1
2	If Dirtiness is Small and TypeOfDirt is Medium then WashingTime is Medium	1
3	If Dirtiness is Medium and TypeOfDirt is Medium then WashingTime is Medium	1
4	If Dirtiness is Large and TypeOfDirt is Medium then WashingTime is VeryLong	1
5	If Dirtiness is Small and TypeOfDirt is Greasy then WashingTime is Long	1
6	If Dirtiness is Medium and TypeOfDirt is Greasy then WashingTime is Long	1
7	If Dirtiness is Large and TypeOfDirt is Greasy then WashingTime is VeryLong	1

Calculate the washing time for:
TypeOfDirt=40 & Dirtiness=50

	Rule	Weight
1	If TypeOfDirt is NotGreasy then WashingTime is Short	1
2	If Dirtiness is Small and TypeOfDirt is Medium then WashingTime is Medium	1
3	If Dirtiness is Medium and TypeOfDirt is Medium then WashingTime is Medium	1
4	If Dirtiness is Large and TypeOfDirt is Medium then WashingTime is VeryLong	1
5	If Dirtiness is Small and TypeOfDirt is Greasy then WashingTime is Long	1
6	If Dirtiness is Medium and TypeOfDirt is Greasy then WashingTime is Long	1
7	If Dirtiness is Large and TypeOfDirt is Greasy then WashingTime is VeryLong	1
